### **DETAILED ACTION**

This office action is in response to applicants' communication filed on 10/16/06.

Claims 1-20, 24, 31 and 32 are pending in this application. Claims 21-23 have been canceled.

#### ***Information Disclosure Statement***

1. The information disclosure statement (IDS) submitted on 4/2/07 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement has been considered by the examiner.

#### ***Claim Rejections - 35 USC § 112***

2. Claims 18-19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The same factors are applied for the prevention of obesity, i.e. *In re Wands* factors. The main question is that who is the candidate for whom the compounds are administered for the prevention of obesity. It is hard to predict, and prevent. Yes, the obesity can be treated.

Applicants should limit their claims to treating rather than preventing.

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1621

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5, 9-13 and 16-17 are again rejected under 35 U.S.C. 102(b) as being anticipated by Ishiwata et al.

Ishiwata et al, page 1274, compound IV, anticipate instant claims, when in the instant claims, R1 is methoxy substituted phenyl, R2 is phenyl and Ar is tri-methoxy substituted phenyl. Inasmuch the compounds are in water, pharmaceutical compositions are anticipated.

5. Claims 6-7, 14-15, 20 and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 8 and 31-32 are free of prior art and are allowable.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
